Employee/Self-Employed Tax Tips

- A) **First-Year Expensing Election.** Up to \$500,000 of qualifying business assets (including up to \$250,000 of qualified real property) purchased and placed in service in 2011 may be expensed currently. (Separate limits apply to business autos and SUVs.)
- B) **Business Use of Home Deduction.** If an area of the home is used regularly and exclusively for business, a deduction for a portion of mortgage interest, taxes, insurance, other operating costs and depreciation may be allowed. Special rules apply for inventory storage and daycare.
- C) **Per Diem Meal Rates.** In lieu of using actual expenses incurred for meals and incidental expenses, self-employed individuals and employees may deduct per diem amounts up to IRS-approved rates. The rates depend on location. Provide detailed list of dates and locations of business travel.
- D) **Self-Employed Health Insurance Deduction.** Premiums paid are for the self-employed individual, spouse, dependents and children under age 27. The deduction is not allowed for any month that the self-employed individual is eligible to participate in a subsidized health plan maintained by any employer. This rule is applied separately for policies that include long-term care.
- E) **Self-Employed Retirement Plans.** Many retirement plans (funded with pre-tax dollars) are available to self-employed business owners. The deadlines for establishing a retirement plan vary. If you have employees, matching contributions may be required.
- F) **Small Employer Health Insurance Credit.** A credit is available to qualified small employers that pay health insurance premiums for employees. Premiums paid for the business owner and his family members don't qualify. Ask us for details.

Vehicle Expense

- Travel expenses between home and a temporary work location *within* your metropolitan area are not deductible unless one of two tests are met:
 - You have one or more regular work locations away from your home or
 - You qualify for a business use of home deduction.
- A work location is considered temporary if employment is expected to last and actually does last for one year or less. Commuting expenses for going between the taxpayer's home and a temporary work location *outside* the metropolitan area where the taxpayer lives and normally works are deductible.
- There are two methods to determine the deduction for automobiles and trucks used for business: (1) actual expenses or (2) standard mileage rate (for 2011, 51¢ per mile through 6/30/11; 55½¢ per mile after 6/30/11). You may claim the standard mileage method whether you own or lease your vehicle.
- For each vehicle used for business, complete lines 1-6. If you use standard mileage allowance, ignore lines 7-13. If you purchased a vehicle this year and *do not* use standard mileage allowance, provide a copy of the sales invoice.

 4) Do you have an employer-provided vehicle that is available for personal use? Yes No
 5) Were you reimbursed for any of above auto expenses? Yes No

Tax Tips for All Taxpayers

- 1) A person who files a joint return (other than a return filed solely to claim a refund) cannot be claimed as a dependent. Also, special rules apply to children of divorced parents.
- 2) An American Opportunity tax credit (\$2,500 maximum per-student, per-year) is available for the first four years of post-secondary tuition, fees, books, supplies and equipment.

A lifetime learning credit (\$2,000 maximum per return) is available for post-secondary educational expenses (tuition and fees, plus books, supplies and equipment that must be paid to the institution as a condition of enrollment or attendance). It is available for an unlimited number of years for undergraduate, graduate, professional degree and other students acquiring or improving job skills enrolled in one or more courses.

The education credits phase out at higher levels of adjusted gross income (AGI).
- 3) You can deduct up to \$2,500 of interest on qualified education loans for college or vocational school expenses, or up to \$4,000 of post-secondary tuition and fees, even if you do not itemize deductions. Deductions are phased out based on AGI.
- 4) Nondeductible contributions up to \$5,000 (\$6,000 if age 50 or older) can be made to a Roth IRA. Distributions, including earnings, are tax-free when certain requirements are met. The contribution limit is subject to an AGI-based phase-out.
- 5) An IRA deduction up to \$5,000 (\$6,000 if age 50 or older) is available to all taxpayers who are not covered by an employer-sponsored retirement plan. Taxpayers covered by an employer plan may be eligible for a full or partial deduction, depending on their AGI.
- 6) If only one spouse has compensation, a spousal IRA can be set up for the nonworking spouse. Each spouse (working and nonworking) may contribute up to \$5,000 or \$6,000 (if age 50 or older).
- 7) The 10% penalty for withdrawals from an IRA before age 59½ does not apply if the funds were used for: (a) medical expenses in excess of 7.5% of AGI, (b) certain qualified educational expenses, (c) a first-time home purchase for distributions of up to \$10,000 or (d) medical insurance for those who are unemployed for at least 12 weeks. **Note:** IRA withdrawals are still subject to regular income tax.
- 8) A gain exclusion up to \$250,000 (\$500,000 if married and filing jointly or certain surviving spouses) is available for a sale of a principal residence if the taxpayer(s) owned and occupied the residence for two years of the five-year period ending on date of sale. The five-year period is extended for certain military, foreign service and intelligence personnel. If the home was used other than as your principal residence any time after 2008, some of the gain may be taxable.
- 9) Interest on certain U.S. savings bonds issued after 1989 is tax-exempt if proceeds are used for qualified educational expenses of a taxpayer, spouse or dependent, subject to AGI-based phase-out.
- 10) Keep receipts supporting tax deductions at least four years.
- 11) Improvement costs may reduce taxable gain upon sale of property. Keep records of improvement costs made to all real property at least four years after the property is sold.
- 12) If stock or mutual fund dividends are automatically reinvested instead of received in cash, these reinvestments increase cost basis, and reduce gain or increase loss upon sale.
- 13) If "allocated tips" are listed on year-end Form W-2, the amount will be subject to both Social Security and income tax unless records (tip log) verify that a lesser amount was actually received.
- 14) Child care credit equals up to a 35% of up to \$3,000 of child care costs paid for one dependent or \$6,000 for two or more dependents.
- 15) Individuals covered only by a high deductible health plan (deductible between \$1,200 and \$5,950 for individual coverage and between \$2,400 and \$11,900 for family coverage) can make deductible contributions to HSAs. For self-only coverage, contributions are

limited to \$3,050 (\$4,050 if age 55 or older). For family coverage, contributions are limited to \$6,150 (\$7,150 if age 55 or older).
